1. 在“申请类型”中根据个人情况，选择并提交毕业申请，提交后不予更改。

The image shows a mobile application interface for submitting a graduation application. The interface is titled "毕业申请" (Graduation Application) and includes a user profile section with fields for gender, student ID, ID card number, ethnicity, level, major, teaching station, contact phone, and emergency contact phone. Below this is the "申请类型" (Application Type) section, which contains three radio button options. The first option is "本人已达到学位申请条件，自愿申请毕业和学士学位。" (I have met the graduation application conditions and voluntarily apply for graduation and a bachelor's degree). The second option is "本人只申请毕业，自愿放弃申请学士学位。" (I only apply for graduation and voluntarily give up applying for a bachelor's degree). The third option is "本人虽已达到毕业条件，但未达到学位申请条件。因需申报学士学位，自愿暂缓毕业，学籍有效期内达到学位申请条件后，再申请毕业并申报学士学位。如以后学期仍选择暂不毕业，本人亦同意每学期重新申请，否则视为本人申请毕业并放弃申请学位。" (Although I have met the graduation conditions, I have not met the graduation application conditions. Because I need to declare a bachelor's degree, I voluntarily postpone graduation. After meeting the graduation application conditions within the valid period of my student record, I will re-apply for graduation and declare a bachelor's degree. If I still choose not to graduate in the next semester, I also agree to re-apply every semester, otherwise it will be regarded as my application for graduation and giving up the application for a degree). Below the "申请类型" section is the "审批流程" (Approval Process) section, which shows a flowchart with three steps: "我" (Me) - 提交毕业申请 (Submit graduation application), "学院" (College) - 审核 (Review), and "教学点" (Teaching point) - 教学点审核 (Teaching point review).
